At écologie, our mission is to build a better future for the planet without compromising on style.

We are committed to working towards producing high quality, affordable and completely sustainable clothing using pioneering techniques, that are kinder to the environment.

THE ORGANIC PROCESS

- Our Organic cotton is grown using only natural fertilisers and non genetically modified seeds
- Waste water is treated so no contamination is released into the environment
- Finishing leaves no dye, bleach or chemical residue

working to do the *RIGHT THING.*

Not only is it important for us to source sustainably, but here at Ecologie we only work with manufacturers that match our ideals and vision for a better future. We have dedicated teams visiting and working closely with our carefully selected partners to monitor and support them in making continuous improvements.

As part of écologies sustainability journey, our brand is also officially recognised as 100% free of any animal ingredients. The PETA-Approved Vegan logo was established to highlight products that no animal had to suffer for and label vegan fashion items commitment to animals.

Our journey

Our approach is and will always be sustainably led. We work tirelessly to ensure environmental standards are met and consider our carbon impact as a priority. We are proud to say that all *écologie* garments are delivered to customers in plastic-free packaging, and we never air freight any deliveries. As an ethical brand, we also recognise that we have the responsibility to support our manufacturing partners to make continuous improvements where necessary, and champion their sustainable journey, too. We ensure all our manufacturing methods go above and beyond the ideals of our growing customer base who love and wear our products, without compromising on quality and style.

Our *écologie* range is growing and evolving, we believe our Crater Recycled matching sweat set, is going to be a big hit, providing comfort and style in sustainable fashion. The EA042 hoodie, the EA032 sweatshirt and the

EA070 jogpants are all made from 70% recycled cotton and 30% recycled polyester. The three pieces make for an interchangeable set, each garment comes in a relaxed unisex fit for maximum comfort and will be available in a size range of XS to 2XL, in black, navy, and heather grey. In addition, we will also be adding an on-trend oversized T, the EA006 Arrow Recycled Heavy Oversized T, made from 48% Recycled Cotton, 47% Recycled Polyester and 5% Elastane. Again, coming in sizes from XS to 2XL, this style is set to be popular and one to watch, a basic essential elevating any look.

Our garments are designed with re-branding in mind, with our products featuring a size tab and tearaway label. Our sustainable products create the perfect balance of offering environmentally friendly garments whilst being on trend and made to a high quality.
